

JOSE CAMPOS TORRES

joseluiscampostorres10@gmail.com | + 51 940 746 627 | Lima, Peru (GMT-5)

Graduated in Systems Engineering with more than 4 years of experience as a Full Stack Developer & DevOps in various industries.

I specialize in turning complex problems into efficient solutions, combining the development of functional and secure applications with an attractive and intuitive design. My focus is on innovation and quality to deliver systems that optimize processes and improve the user experience.

TECHNICAL SKILLS

Frontend Technologies: Angular, NextJS, ViteJS, ReactJS, VueJS, HTML5, CSS3, JavaScript, Bootstrap, TailwindCSS, Sass, TypeScript, JQuery.

Backend Technologies: Java, Spring Boot, NodeJS, Python, PHP, Laravel, NestJS, Docker, Kubernetes, Sequelize, ExpressJS.

Database: PostgreSQL, MySQL, MongoDB, SQL Server, Oracle, Firebase.

Cloud Services: Azure, AWS (EC2, RDS, S3), Google Cloud Platform.

Other technologies: Jenkins, GitLab CI, JMeter, JUnit, Kotlin, Android Studio, C++, Git, GitHub, Postman, Jira, Trello, Notion, Figma, dbForce Studio for SQL.

Methodologies: Scrum, Agile, Kanban.

EDUCATION

- Edteam - **August 2024 - Present.**
- National University of Cañete - **January 2020 — December 2024.**
- Metropolitan University of Education, Science and Technology (UMECIT) - **November 2023 — November 2023.**
- CJava Peru (Full Stack Developer) - **August 2023 — May 2024.**
- British Peruvian Cultural Association (Basic English) - **February 2023 — February 2024.**
- Language Center of the National University of Cañete (Intermediate English) - **August 2021 — April 2022.**
- TDI Peru (Web Developer) - **April 2021 — May 2021.**

PROFESSIONAL EXPERIENCE

ODYBANK

Full Stack Developer Semi Senior

August 2024 – Present

Achievements:

- Designed and implemented key improvements in the SIMP of financial institutions such as Caja Trujillo, Caja Arequipa, Caja Piura, and Caja Cuzco, optimizing the user experience and ensuring efficient management of banking functional processes.
- Developed and integrated new functionalities adapted to the specific needs of each institution, including Banco Comercio, to improve the services offered and align them with financial sector standards.
- I made significant improvements in stored procedures (SPs), views, and tables, optimizing data management and increasing performance in critical processes for banking operations.

Technologies used: Java 8, 11, 17, Spring Boot, JavaScript, Angular, Thymeleaf, HTML, CSS, SQL, Jira, Gitlab and Git, Scrum, Notion.

Ministerio Público - Fiscalía de la Nación

Software Engineer I

April 2024 – July 2024

Achievements:

- Designed and implemented an administration system for Cañete, optimizing the management of internal processes and improving operational efficiency. It included functionalities adapted to local needs.
- Developed an inventory system that improved resource control and reduced inquiry times. Implemented a real-time attendance system, increasing accuracy and reducing administrative errors.

Technologies used: PHP, Laravel, JavaScript, Bootstrap, HTML, CSS, MySQL, JQuery, Ajax, Jira, Github and Git, Scrum, Trello, Notion, Linux, Composer.

Softaki - Technology & Innovation Consulting

Software Engineer I

August 2023 – March 2024

Achievements:

- I designed and developed RESTful APIs to integrate systems with Instagram and Facebook, implementing secure authentication, data management and integration with external services.
- I created a web page with interactive animations, buttons, and input fields with visual effects, using modern design techniques to enhance the user experience.
- I collaborated in the development of the ArquíTechPro website, participating in the structure of the site, interface design and implementation of features to reflect the identity and services of the company.

Technologies used: HTML5, CSS3, JavaScript, TypeScript, React, Angular, Bootstrap, NestJS, Node.js. MySQL, PostgreSQL, MongoDB, GitLab CI, RESTful APIs, Firebase, OAuth, Graph API, Instagram API, Facebook API. Scrum, Kanban.

Ministerio Público - Fiscalía de la Nación

Full Stack Developer

February 2023 – July 2023

Achievements:

- I designed and implemented a custom system for UDAVIT (Victim and Witness Assistance Unit), improving the management of internal processes and operational efficiency with specific functionalities.
- I designed and implemented an internal tax registration system, facilitating efficient and secure information management with report generation and integration with databases.
- I managed and administered Ubuntu and Debian servers, performing maintenance, updates and monitoring.
- Implemented security measures, managed users and permissions, and optimized server performance to ensure smooth and secure operation.

Technologies used: Php, Laravel, JavaScript, Bootstrap, Html, Css, Mysql, JQuery, Ajax, Jira, Github and Git, Scrum, Trello, Notion, Linux, Composer.

Peru Travels Team S.A.C

DevOps Developer

January 2022 – January

2023

Achievements:

- I set up CI/CD pipelines with Jenkins and GitLab CI, reducing deployment time by 40% and accelerating continuous delivery.
- I used Docker to containerize applications, facilitating development in isolated environments and reducing conflicts in production.
- Deployed and managed resources on AWS (EC2, RDS, S3), ensuring high availability and performance.
- Managed and scaled Docker containers with Kubernetes, improving application availability and responsiveness.
- I set up basic monitoring on Linux servers with top, htop and netstat to ensure the smooth functioning of the system.
- I managed version control with Git, ensuring efficient and organized management of the source code.

Technologies used: Jenkins, GitLab CI, Docker, Kubernetes, AWS (EC2, RDS, S3), Git, Linux Servers.

Full Stack Developer

January 2021 – December

2021

Achievements:

- I built and deployed web applications with React and Angular for the frontend, and Node.js and Spring Boot for the backend.
- Implemented features like protected paths, form validation, and real-time communication with WebSockets.
- Migrated monolithic applications to microservices with Spring Boot, improving scalability and resiliency. I designed RESTful APIs and optimized database queries.
- I optimized the frontend with lazy loading and minification and clustering techniques of CSS and JavaScript files.
- Improved API responsiveness by 35% by optimizing SQL queries and configuring caches.
- I developed automated tests with JUnit and JMeter, achieving 50% coverage and early detection of errors.
- I implemented backend applications in Java with Spring Boot, integrating external services and managing relational databases.
- I developed applications with Laravel, achieving rapid deployment and a clear code structure.

Technologies used: Java(8,11,17), Spring Boot, JavaScript, React, Angular, Vue, Node.js, Express.js, Laravel, SQL (MySQL, PostgreSQL), HTML5, CSS3, Git, Github, Kurbenetes, Docker, RESTful APIs, Firebase, JUnit, JMeter, Bootstrap.

Achievements:

- Developed a Help Desk system to manage and resolve incidents 90% efficiently.
- Developed a sales system for restaurants, improving their efficiency and productivity by 80%.
- I developed the company's website, increasing its visibility and attracting the general public by clearly presenting the services offered, which resulted in an 80% improvement in customer acquisition.

Technologies used: Php, Laravel, JavaScript, Bootstrap, Html5, Css3, Mysql, JQuery, Ajax, Jira, Github and Git, Scrum, Trello, Notion.

CERTIFICATIONS

- ✓ **Certification of the VI International Congress of Systems Engineering and Scientific Research 2024**, National University of Cañete, 2024, Lima, Peru.
- ✓ **Docker certification from scratch**, EDteam, 2024, Lima, Peru.
- ✓ **Certified in Scrum Fundamentals Certified**, ScrumStudy, 2024, Lima, Peru.
- ✓ **Certification in React from scratch**, EDteam, 2024, Lima, Peru.
- ✓ **Microsoft Azure AI Fundamentals Certification**, Microsoft, 2024, Lima, Peru.
- ✓ **Certified in Scrum Fundamentals Certified**, ScrumStudy, 2024, Lima, Peru.
- ✓ **Full Stack JavaScript Developer Programming Certification**, Udemy, 2024, Lima, Peru.
- ✓ **Full Stack Programming Certification**, CJAVA Peru, 2024, Lima, Peru.
- ✓ **Java Expert Certification**, CJAVA Peru, 2024, Lima, Peru.
- ✓ **Java Developer Certification**, CJAVA Peru, 2024, Lima, Peru.
- ✓ **Java Programmer Certification**, CJAVA Peru, 2024, Lima, Peru.
- ✓ **Certification in JavaScript Algorithms and Data Structures(Beta)**, FreeCodeCamp, 2024, Lima, Peru.
- ✓ **Certification in Complete Web Development (JS, PHP and MySQL)**, Udemy, 2024, Lima, Peru.
- ✓ **Certification in SQL and Relational Databases 101**, Cognitive Class, 2024, Lima, Peru.
- ✓ **Certification in Project Management with Agile Methodologies and Lean Approaches**, Fundación Telefónica, 2024, Lima, Peru.
- ✓ **Certification in UX Fundamentals**, Fundación Telefónica, 2024, Lima, Peru.
- ✓ **Certification as Front End Developer**, CJAVA Peru, 2023, Lima, Peru.
- ✓ **PCAP: Programming Essentials in Python**, Cisco Networking Academy, 2023, Lima, Peru.
- ✓ **Certification in Fundamentals of Information Security**, Secretariat of Government and Digital Transformation of the Presidency of the Council of Ministers, 2023, Lima, Peru.
- ✓ **Certification of the V International Congress of Systems Engineering and Scientific Research 2023**, National University of Cañete, 2023, Lima, Peru.
- ✓ **Professional Certification in Scrum Foundation (SFPC) - 2020 Edition**, CertiProf Iberoamerica, 2023, Lima, Peru
- ✓ **Certificate of Participation in the Java Programming Course**, GEM Educational Association, 2023, Lima, Peru.
- ✓ **Certification in the Creation of a Help Desk System**, Udemy, 2023, Lima, Peru.
- ✓ **Certificate of Participation in the Landing Page Web Development Course for Business Projects**, GEM Educational Association, 2023, Lima, Peru.
- ✓ **Certificate of the IV International Congress of Research and Information Technologies 2022**, National University of Cañete, 2022, Lima, Peru.
- ✓ **Certification in Operating Systems and Databases Training**, National University of Cañete, 2022, Lima, Peru.
- ✓ **Certification at the Software Development Conference**, Universidad Nacional de Cañete, 2022, Lima, Peru.

- ✓ **Certification at the Digital Transformation Conference**, National University of Cañete, 2022, Lima, Peru.
- ✓ **Certification in the Specialization Course in Web Environment Computing**, National University of Cañete, 2022, Lima, Peru.
- ✓ **Certification of the III International Congress of Research and Information Technologies 2021**, National University of Cañete, 2021, Lima, Peru.
- ✓ **Certification in Application Development with Angular Framework and Firebase Platform**, Universidad Nacional de Cañete, 2021, Lima, Peru.
- ✓ **Certification in the Cloud Services Infrastructure Course-Workshop**, Universidad Nacional de Cañete, 2021, Lima, Peru.
- ✓ **Certification in Machine Learning Oriented to Pattern Recognition**, National University of Cañete, 2021, Lima, Peru.
- ✓ **Certification in the Technological Singularity Course-Workshop**, National University of Cañete, 2020, Lima, Peru.
